Who are we?

Select Healthy Mind is a reputable and established Windsor Psychotherapy Practice founded in 2013 by Clinical Director and Lead Therapist Barbara Paczkowska BSc (Hons), MSc CBT, (BABCP Accredited.)

Together with her daughter Joanna Prior (nee Paczkowska) MSc, BSc Pg. Certificate, Pg. Diploma, MBACP - it aims to provide qualified, expert advice through individually tailored therapy offered to adults, children and adolescents experiencing a range of emotional and troubling mental health issues.

It has developed to recognise that the type of therapy given must reflect each individual's distinct personality and needs and as such adapts any required treatment to suit the client not the issue or condition itself.

Therapy is provided in a safe and non-judgmental environment where at all times you feel acknowledged, listened to and supported. We work with clients at our private offices in Thames Street, just below the historic Windsor Castle and also offer counselling via SKYPE online.

“

I truly believe that the insights & tools I learnt at Select Healthy Mind will provide the bedrock on which I can confidently build the rest of my life. I consider myself extremely fortunate to have found a therapist who took the time to understand me as a person and didn't just concentrate on my imperfections ...but always encouraged me to look for the positive ...thank you SHM.
